

GANZ BOATS 

OVATION ^{6.8}

OVATION – ONLY ONE BOAT CAN BEAR THIS NAME

The Ovation is unique because it pushes the boundaries of ergonomics, dynamics, efficiency and emotions to the maximum. The Ovation offers its owner a one-of-a-kind design, with breathtaking handling characteristics along with a generous and versatile deck layout. Arrange for a test drive, and you will feel how the Ovation combines traditional Swiss quality and pioneering innovation.

OVATION – ALL OR NOTHING

This is how Ganz Boats creates your personal Ovation: a stern transom that can be hydraulically lowered, providing a convenient bathing platform, and raised to allow for better maneuvering. Then there is the staircase from the cockpit to the bow, which together with the location of the sunbathing area provides a deck layout with maximum freedom of movement. And of course there is the handling performance, which is revolutionary whether you prefer speed or relaxation.

OVATION – 100% INDIVIDUALITY

Ovation has one main goal: to exceed all expectations. You will be amazed by how stylish innovative functionality can be.

Not only does this make your Ovation something special, it also makes it unique since no two Ovations ever built are alike. The Ovation is manufactured by Mathias Ganz and his team according to your personal wishes. One thing is always clear: "can't be done" is gone!

OVATION – THIS BOAT'S FUTURE IS THE EMOTION INVESTED IN IT

Ovation offers everything for the heart and mind. The boat is as stylishly elegant as it is functional. State-of-the-art innovations in the development combined with traditional quality: a growing friendship and lasting value for many years to come. Ganz Boats – Made in Switzerland.
